Ozobot Tips

Tips: Calibration

1. Hold down the power button on Ozobot for 2 seconds until the LED light turns white.
2. Place Ozobot in the middle of the black calibration dot.
3. Ozobot will then blink blue, move forward, and then blink green.
4. When Ozobot blinks green, it means that it has successfully calibrated. Start over if Ozobot blinks red.

Tips: Drawing Lines

- **Too Thin!**
- **Too Thick!**
- **Inconsistent!**
- **Just Right**

Before playing on a tablet or smartphone, you need to calibrate to the digital screen. Follow the calibration instructions in the "Ozobot Tuneup" section of our apps.

When using the Clear Play Sleeve, be sure to place the calibration dot INSIDE the sleeve, then calibrate on top.

Ozobot will then blink blue, move forward, and then blink green.

When Ozobot blinks green, it means that it has successfully calibrated. Start over if Ozobot blinks red.

When using the Clear Play Sleeve, be sure to place the calibration dot INSIDE the sleeve, then calibrate on top.
