Stage 2: INVESTIGATING & GATHERING - Citing Sources

MLA FORMATS

At the end of your paper, you must include a bibliography, which is a list of all resources you have used. The entire list must be double-spaced and is titled either Works Cited or References. If a citation takes more than one line the additional lines are indented.

Note: MLA (Modern Language Association) format is generally used for English, Languages and the Arts and APA (American Psychological Association) format is used for Social Sciences and CMS (Chicago Manual of Style) is used for History. At the elementary level, we will be focusing our skill development on the use of MLA style of citation.
